Profile Summary

QA Engineer with 3+ years of experience in Manual and Automation Testing, now expanding into AI-native QA workflows. Skilled in Selenium with Java, Playwright, TestNG, Cucumber, and API testing. Experienced in Agile environments, CI/CD pipelines, and building AI agent-based tools to improve QA processes.

Skills

- Testing: Test Case Design, Bug Life Cycle, SDLC/STLC, UAT, Agile
- Automation: Selenium with Java, Playwright, TestNG
- Frameworks: Cucumber (BDD/Gherkin), Page Object Model, ExtentReports
- API & Performance: Postman, Swagger, REST APIs, JMeter (familiar)
- AI-Native QA: AI agent-based workflow automation (bug logging agent, git checker agent), prompt-driven test tooling
- Tools & Platforms: JIRA, YouTrack, ClickUp, Git, Linear, WordPress
- Programming & Tech: Java, SQL, HTML, JSON
- CI/CD: GitHub Actions
- Familiar with: Tableau

Professional Experience

QA Engineer

Viamagus Technologies Pvt Ltd | Jan 2026 – Present | Coimbatore, Tamil Nadu

- Working on Neubird, an AI infrastructure reliability platform, testing monitoring and incident-management features for accuracy and reliability.
- Building and integrating AI agents into the QA workflow, including a bug logger agent for automated defect capture and filing, and a git checker agent for reviewing commits/PRs for QA-relevant changes.
- Performing API testing (Postman) and backend data validation (SQL), alongside automated regression testing using Selenium and TestNG.
- Tools used: Playwright, Postman, SQL, Git, AI Agent Tooling

QA Engineer

Onedata Software Solutions | Jan 2025 – Oct 2025 | Coimbatore, Tamil Nadu

- Designed Functional test cases and systematized regression suites.
- Delivered QA reports with >90% test coverage and tracked 100+ issues in YouTrack.
- Tools used: Selenium, TestNG, Postman, YouTrack

QA Engineer I

Techjays | Sept 2024 – Dec 2024 | Remote

- Scripted and implemented automated test scenarios for vendor management, improving test reliability by 25%.
- Coordinated UAT across 3 cross-functional teams, ensuring timely release sign-offs.
- Tools: Selenium, Postman, Playwright, ClickUp

QA Engineer

Incentives Software Pvt Ltd | Aug 2023 – Sept 2024 | Remote

- Authored 100+ detailed test cases and logged 70+ defects in JIRA, accelerating defect resolution.
- Executed end-to-end testing for browser extensions (e.g., MyPoints and coupon-based extensions).
- Tools used: Swagger, Postman, JIRA

Projects

Project #5 - Neubird – AI Infrastructure Reliability Platform

- Tested monitoring and incident management features for an AI-driven infrastructure platform.
- Performed API testing using Postman and validated backend data using SQL queries.
- Automated regression scenarios using Selenium with TestNG framework.
- Collaborated with developers to reproduce and triage intermittent incident-alerting issues, improving root-cause turnaround.
- Tools: Selenium, Cucumber, Test Runner, ExtentReports, Gmail SMTP

Project #4 - Neohire – Hiring & Recruitment Platform

- Automated workflows for job role creation and interview stages (screening → offer) using Selenium & Cucumber.
- Expanded automation coverage to ~70% of regression cases, improving release confidence.
- Implemented ExtentReports with Gmail SMTP to email execution results to stakeholders.
- Designed reusable Cucumber step definitions to reduce script duplication across hiring-workflow scenarios.
- Tools: Selenium, Cucumber, Test Runner, ExtentReports, Gmail SMTP

Project #3 - OneCare – Healthcare Platform

- Executed end-to-end testing across telehealth, inventory, and patient lab modules.
- Reduced regression cycle time by 30% through reusable TestNG suites.
- Validated critical patient data workflows for accuracy across integrated lab and inventory modules.
- Tools: Selenium, TestNG, Postman, YouTrack

Project #2 - ArenaCX – Vendor Management & Customer Support

- Scripted automated tests for BPO routing logic, validating multiple vendor workflows.
- Partnered with cross-functional teams during Agile sprints, enabling faster defect turnaround.
- Verified customer support ticket routing accuracy across multiple vendor configurations.
- Tools: Playwright (Basic), Postman, ClickUp

Project #1 - Prodege – Browser Extension Apps: Swagbucks, IDB, MyPoints

- Performed end-to-end testing for extensions, including reward flows, extension installs.
- Logged 50+ cross-browser UI/UX issues via JIRA, ensuring smooth Chrome/Firefox releases.
- Validated reward-point calculation accuracy across multiple user reward flows.
- Tools: JIRA, JSON, Chrome DevTools

Certifications

- Postman API Fundamentals – Postman | Apr 2025
- Selenium WebDriver with Java – Test Automation University | Jun 2025
- Building with the Claude API – Anthropic | Mar 2026
- Introduction to Model Context Protocol – Anthropic | Mar 2026
- AI Capabilities and Limitations – Anthropic | Jun 2026

Education

Master of Computer Applications (MCA) – Pursuing

Bharathiar University | Feb 2025 – Present | Coimbatore, Tamil Nadu

B.Sc. Computer Science with Data Analytics

Dr. N.G.P Arts and Science College | Graduated: 2023 | Coimbatore, Tamil Nadu
